

## **Publications And Registered Patent:**

### **1. Publication**

- Vignier, J., Donaghy, L., Soudant, P., **Fu-Lin E. Chu**, Morris, J.M., Carney, M.W., Lay, C., Krasnec, M., Robert, R., & Volety, A.K. (2015). Impacts of Deepwater Horizon oil and dispersant on early development of the American oyster, *Crassostrea virginica*. *Marine Pollution Bulletin*, 100(1), 426-437. DOI: 10.1016/j.marpolbul.2015.08.011
- Philippe Soudant, **Fu-Lin E. Chu**, and Aswani Volety. (2013). Host-Parasite Interactions: Marine Bivalve Mollusks and Protozoan parasites, *Perkinsus* species. *Journal of Invertebrate Pathology*, 114: 196-216.
- Do-Hyung Kang, **Fu-Lin E. Chu**, Hyun-Sung Yang, Chang-Ho Lee, Hyeong-Beom Koh and Kwang-Sik Choi (2010). Growth, reproductive condition, and digestive tubule atrophy of Pacific oyster, *Crassostrea gigas* in Gamakman Bay off the southern coast of Korea. *Journal of Shellfish Research*, Vol. 29, No. 4, 839–845, 2010.
- S.E. Wilson, D.K. Steinberg, **Fu-Lin E. Chu**, J.K.B. Bishop. (2010). Feeding ecology of mesopelagic zooplankton of the subtropical and subarctic North Pacific Ocean determined with fatty acid biomarkers. *Deep-Sea Research I*, 57: 1278–1294.
- Fu-Lin E. Chu**, Eric D. Lund, Paul R. Littreal, Kate E. Ruck, Ellen Harvey. (2009). Species-specific differences in long-chain n-3 essential fatty acid, sterol, and steroidal ketone production in six heterotrophic protist species. *Aquatic Biology*, 6: 159-172.
- Eric D. Lund, **Fu-Lin E. Chu**, Paul R. Littreal, Kate E. Ruck, Ellen Harvey. (2009). An investigation of the mechanism(s) of sterol synthesis and dietary sterol conversion in the heterotrophic protists *Oxyrrhis marina* and *Gyrodinium dominans*. *Journal of Experimental Marine Biology and Ecology*, 374: 150-159.
- Fu-Lin E. Chu**, Eric D. Lund, Paul R. Littreal, Kate E. Ruck, Ellen Harvey, Jean-René Le Coz, Yanic Marty, Jeanne Moal and Philippe Soudant. (2008). Sterol production and phytosterol bioconversion in two species of heterotrophic protists, *Oxyrrhis marina* and *Gyrodinium dominans*. *Marine Biology*, 156:155-169.
- Chu, Fu-Lin E.** Eric D. Lund, and Jennifer A. Podbesek (2008). Effects of triclosan on the oyster parasite, *Perkinsus marinus* and its host, the eastern oyster, *Crassostrea virginica*. *Journal of Shellfish Research*, 27:769-774.
- Eric D. Lund, **Fu-Lin E. Chu**, Ellen Harvey and Richard Adlof (2008). Mechanism(s) of “essential nutrient upgrading” in two species of heterotrophic protists: *Oxyrrhis marina* and *Gyrodinium dominans*. *Marine Biology*, 155:23-36.

- Chu Fu-Lin . E.**, E. D. Lund, and J. A. Podbesek. (2008). Quantitative significance of n-3 essential fatty acid contribution by heterotrophic protists in marine pelagic food webs. *Marine Ecology Progress Series*, 354:85-95.
- Soudant P. R. Leite, **F-L. E. Chu**, A. Villalba and L. Cancela. (2008). Bivalves – *Perkinsus* spp. Interactions. In: Proceeding of the workshop for the analysis of the impact of Perkinsosis to the European shellfish industry, pp: 78-109. Publication, Fundacion CETMAR, Vigo, Spain 2008.
- Encomio V. G. and **F-L. E. Chu** (2007). Heat shock protein (Hsp70) expression and thermal tolerance in sublethal heat shocked eastern oysters (*Crassostrea virginica*) infected with the parasite *Perkinsus marinus*. *Diseases in Aquatic Organisms*, 76 : 252-260.
- Delaporte, M., **F-L. E. Chu**, C. Langdon , J. Moal , C. Lambert, J-F. Samain and P. Soudant. (2007) Changes in biochemical and hemocyte parameters of the Pacific oysters *Crassostrea gigas* fed T-Iso supplemented with lipid emulsions rich in eicosapentaenoic fatty acid. *Journal of Experimental Biology and Ecology*, 343: 261-275.
- Lund, E. D., **F-L. E. Chu**, P. Soudant and E. Harvey. (2007). *Perkinsus marinus*, a protozoan parasite of the eastern oyster, has a requirement for dietary sterols. *Comparative Biochemistry and Physiology, Part A*, 146:141-147..
- Chu, F-L. E.**, and E. D. Lund. (2006). Viability, infectivity and fatty acid synthetic activity of *Perkinsus marinus* meront cells incubated in estuarine and artificial seawaters. *Diseases of Aquatic Organisms*. *Dis Aquat Org.*, 71(2): 131-9.
- Veloza, A. J., **F-L. E. Chu** and K.W. Tang. (2006). Trophic modification of essential fatty acids by heterotrophic protists and its effects on the fatty acid composition of the copepod *Acartia tonsa*. *Marine Biology*, 148: 779 – 788.
- Soudant, P. **F-L. E. Chu**, and Eric D. Lund. (2005). Assessment of the cell viability of cultured *perkinsus marinus* (perkinsea), a parasitic protozoan of the eastern oyster, *crassostrea virginica*, using sybrgreen-propidium iodide double staining and flow cytometry. *Journal of Eukaryotic Microbiology*. 52:492-499
- Lund E D., P. Soudant, **F-L. E. Chu**, E. Harvey, S. Bolton and A. Flowers. (2005). Effects of the drug triclosan on growth, viability and fatty acid synthesis in the oyster protozoan parasite *Perkinsus marinus*. *Diseases of Aquatic Organisms*, 67:217-224.
- Encomio, V. G. and **F-L. E. Chu**. (2005). Seasonal variation of heat shock protein (hsp70) in eastern oysters (*Crassostrea virginica*) infected with *Perkinsus marinus* (Dermo). *Journal of Shellfish Research*, 24:167-175.

- Encomio V.G., S.M. Stickler, S.K. Allen, Jr., and **F-L. E. Chu**. (2005). Performance of “natural Dermo-resistant” oyster stocks: Survival, disease, growth, condition and energy reserves. *Journal of Shellfish Research*, 24: 143-155.
- Xue, Q-G., K. L. Schey, A. K. Volety, **F-L. E. Chu**, J. F. La Peyre. (2004). Purification and characterization of lysozyme from plasma of the eastern oyster (*Crassostrea virginica*). *Com. Biochem. Physiol. Part B*. 139:11-25
- Lund, E., **F- L. E. Chu**, and E. Harvey. (2004). Effects of temperature and salinity on fatty acid synthesis in the oyster protozoan parasite *Perkinsus marinus*. *Journal of Experimental Biology and Ecology*.
- Chu, F- L. E.**, E. Lund, and E. Harvey. (2004). Arachidonic Acid Synthetic Pathways of the Oyster Protozoan Parasite, *Perkinsus marinus*: evidence for usage of a delta-8 pathway *Molecular and Biochemical Parasitology*, 133:45-51.
- Chu, F- L. E.**, P. Soudant and E. Lund. (2003). *Perkinsus marinus*, a protozoan parasite of the Eastern oyster (*Crassostrea virginica*): Effects of temperature on the uptake and metabolism of fluorescent lipid analogs and lipase activities. *Experimental Parasitology*, 105:121-130.
- Cruz-Rodríguez, L A. and **F-L. E. Chu**. (2003). Hsp70 levels in oyster *Crassostrea virginica* exposed to cadmium sorbed to algal food and suspended clay particles. *Proceeding of 4<sup>th</sup> International Conference on Molluscan Shellfish Safety*, Santiago de Compostela, Spain, June 2002 (peer review) (edit: Villalba, Reguera, Romalde and Beiras). Pp555-568.
- Chu, F-L. E.**, P. Soudant and R. C. Hale. (2003). Relationship between PCB accumulation and reproductive output in conditioned oysters *Crassostrea virginica* fed a contaminated algal diet. *Aquatic Toxicology*, 65:293-307.
- Cruz-Rodríguez, L A. and **F-L. E. Chu**. (2002). Heat-shock protein (HSP70) Response in the Eastern Oyster, *Crassostrea virginica*, Exposed to PAHs Sorbed to Suspended Artificial Clay Particles and to Suspended Field Contaminated Sediments. *Aquatic Toxicology*. 60: 157-168.
- Lund, E. and **F-L. E. Chu**. (2002). Phospholipid biosynthesis in the oyster protozoan parasite, *Perkinsus marinus*. *Molecular and Biochemical Parasitology*, 121: 245-253.
- Chu, F- L. E.**, E. Lund, P. Soudant, and E. Harvey. (2002). *De novo* arachidonic acid synthesis utilizing acetate in *in vitro* cultured *Perkinsus marinus*, a protozoan parasite of the eastern oyster, *Crassostrea virginica*. *Molecular and Biochemical Parasitology*, 11: 179-190.
- Chu, F-L. E.**, A. K. Volety, R. C. Hale, and Y. Huang. (2002). Hemocyte function and

- disease expression in oysters (*Crassostrea virginica*) exposed to polycyclic aromatic hydrocarbon- contaminated sediments. *Marine Environmental Research*, 53:17-35.
- Soudant, P., and **F-L. E. Chu**. (2001). Lipid class and fatty acid composition of the protozoan parasite of oysters, *Perkinsus marinus*, cultivated in two different media. *Journal of Eukaryotic Microbiology*, 48:309-319.
- Soudant, P. **F-L E. Chu**, and Y. Marty. (2000). Analysis of lipid class composition of the oyster protozoan parasite, *Perkinsus marinus* and metabolites derived from the metabolism of fluorescent phosphatidylcholine analog. *Lipids*, 35:1387-1395.
- Chu, F-L. E.** P. Soudant, A. K. Volety, Y. Huang. (2000). Uptake and interconversion of fluorescent lipid analogs in the protozoan parasite, *Perkinsus marinus*, of the oyster, *Crassostrea virginica*. *Experimental Parasitology*. 95:240-251.
- Chu, F-L. E.** (2000). Defense mechanisms of marine bivalves. In: *Recent Advances in Marine Biotechnology. Volume 5, Immunobiology and Pathology*. M. Fingerman & R. Nagabhushanam (edits). Science Publishers, Inc., Enfield (NH), USA, Plymouth, UK. pp 1-42.
- Chu, F.-L. E.**, P. Soudant, L. A. Cruz-Rodriguez, and R. Hale. (2000). PCB uptake and accumulation by oysters (*Crassostrea virginica*) exposed via a contaminated algal diet. *Mar. Environ. Res.* 50: 217-221.
- Encomio, V., and **F-L. E. Chu**. (2000). The effect of PCBs on glycogen reserves in the eastern oyster *Crassostrea virginica*. *Mar. Environ. Res.* 50:45-49.
- Cruz-Rodriguez, L., A. J. Baucum, P. Soudant, **F-L. E. Chu**, R. C. Hale. (2000). Stress protein response (Hsp 70 family) in the eastern oyster, *Crassostrea virginica*, exposed to PCBs sorbed to algal paste. *Mar. Environ. Res.* 50:341-345.
